

POWERTEC®

Router Table Set-up Bars

SAFETY RULES

⚠ WARNING

To reduce the risk of injury, turn machine off and disconnect it from power source before installing and removing accessories. An accidental start-up can cause injury.

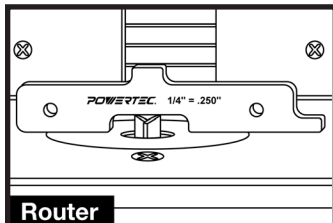

⚠ WARNING

For your own safety, read and follow all safety procedures listed in the machine instruction manual.

HOW TO USE

To Set Precise Depth of Cut

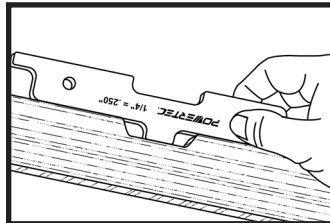

Select the desired set-up bar and place the concave section of the bar over the router bit or saw blade. Adjust the router bit or saw blade to touch the set up bar as shown.

Router

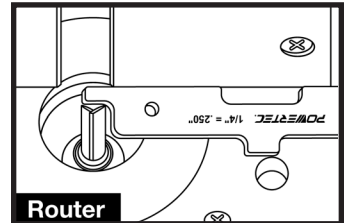

To Check the Depth of Cut

After each pass, use the step up, on the other side of the same bar, to test the depth of cut as shown.

To Set Fence Distance from Blade/Bit

Use the step on the end of the bar to set the distance from the fence to the router bit or saw blade as shown.
